

Penn River Partners With Hannover Re

Companies join forces to launch Reinsurance addition to its digital platform for life and annuity insurers

NEWTON SQ, PA, June 8, 2021 – Penn River Inc, a leading life and annuity software company, today announces its partnership with top tier reinsurer Hannover Life Reassurance Company of America (“Hannover Re US”), to launch a reinsurance addition to its ProductHub platform.

This addition to the platform gives Penn River’s clients the ability to seamlessly integrate with Hannover Re US to evaluate new reinsurance solutions, as well as support existing reinsurance relationships, all through one central, digital hub.

ProductHub is an industry first, cloud-based solution that simplifies the product development process and ongoing product management cycle for life and annuity carriers through enhanced digital architecture. With improved transparency and the ability to connect information across disparate sources and cross-functional teams, the platform provides as much as a 30% reduction in time to market, and a 25% reduction in product development costs.

The implementation of a reinsurance addition to the platform creates a simple and secure system that saves valuable time and resources for both the carrier and reinsurer alike. Insurance carriers will have the ability to initiate requests for new proposals or request updates for reinsurance directly from the ProductHub platform. They can also easily load their data, share documentation with Hannover Re US, as well as track statuses clearly and transparently, significantly streamlining the entire process.

Tiffany Norman, SVP and Head of Annuity Solutions at Hannover Re US, comments: “Hannover Re has a track record of championing innovative solutions that bring value to all aspects of the life and annuity market, and we’re delighted to be able to help companies launch products more efficiently. It is evident that those who evaluate reinsurance during the product development process, or during rate updates, see the significant benefit. By integrating a reinsurance addition into ProductHub, we’re able to efficiently support existing and prospective clients on their timelines.”

David Shaw, Co-Founder and CEO of Penn River, adds: “We’re excited to partner with Hannover Re US to expand ProductHub’s offerings to include reinsurance evaluations for our clients. This is a great example of how ProductHub can serve as a central hub for product launch and management, with powerful and secure workflow capabilities.”

About Penn River

Penn River is a Native Cloud Life and Annuity software company offering ProductHub as well as a new Policy Administration System (PAS) for the US Life and Annuities Insurance Company marketplace. Their leadership team and key employees had previously contributed to the development of other platforms in the Life PAS space.

About ProductHub
